PROFESSIONAL SUMMARY

Computer Science and Cybersecurity undergraduate with a strong foundation in computer networks, TCP/IP, operating systems, system administration, and cybersecurity fundamentals. Hands-on experience with IP and host reconnaissance, network enumeration, port and service discovery, and vulnerability scanning through academic and security-focused projects. Proficient in Python, Java, SQL, Git, Linux/OS concepts, troubleshooting, and authentication workflows. Seeking entry-level opportunities in networking, IT infrastructure, network security, SOC, or security operations.

TECHNICAL SKILLS

Networking: TCP/IP, OSI Model, IPv4, IP Addressing, DNS, DHCP, Ports & Protocols, Network Troubleshooting, Routing & Switching Fundamentals

Cybersecurity: Network Enumeration, Reconnaissance, Vulnerability Scanning, Port & Service Discovery, Security Fundamentals, Secure Coding

Programming Languages: Python, Java, SQL

Databases: PostgreSQL, MongoDB

Tools & Platforms: Git, GitHub, Linux, VS Code

CYBERSECURITY & NETWORKING PROJECTS

Python-Based IP Enumeration and Network Scanning Tool

2025

- Designed and developed a Python-based network scanning tool to identify reachable hosts, open ports, and running services from a target IP address for authorized lab environments.
- Applied TCP/IP fundamentals, network enumeration techniques, and port discovery methods to organize and interpret scan results for security assessment.
- Structured tool output for readability and analysis, supporting reconnaissance workflows used in vulnerability assessment exercises.

EDUCATION

Bachelor of Engineering (B.E.) - Computer Science and Engineering, Cyber Security

2024 - 2028

Rathinam Technical Campus | CGPA: 8.20

Intermediate Education (Class XII)

2022 - 2024

Resonance Junior College, Vijayawada | 94.5%

Secondary School Education (Class X)

2021 - 2022

Sanskriti Vidyalaya, Darsi | 96%

SELECTED CERTIFICATIONS

- The Bits and Bytes of Computer Networking - Google | May 2026
- Programming in Python - Meta | May 2026
- Foundations of Cybersecurity - Google | Dec 2025
- Ethical Hacking Essentials (EHE) - EC-Council | Jun 2025
- Introduction to Cybersecurity - Cisco | Jul 2025
- CEH v13 - Currently Preparing
